

# TORUS

KAKADU  
OFFROAD SERIES

## TORUS TECHNOLOGY

### WHY PURCHASE A TORUS RV ?

It's a valid question when you have many brands to choose from.

Here are the bullet points:

- \* Body System is structural XPS aircraft foam in a vacuum sandwich panel that is light and extremely strong.
- \* The outer body panels are hail and impact resistant fiberglass.
- \* Rot proof XPS body core system.
- \* Woven-Matt one piece floor system.
- \* Vacuum formed domed structural roof.
- \* R5+ Thermal insulation that is 3 times that of a standard caravan.
- \* 2 times the strength of a framed caravan.
- \* One part moulded vacuum formed dome roof.
- \* Cabinetry is block screwed NOT stapled.
- \* 10 Year Offroad Structural Body Warranty.
- \* 5 year Chassis Warranty - Full Hot Dip Gal.
- \* 3 year Suspension warranty with the Kodiak Extreme II independent suspension.
- \* Exceptional post sale service and support.
